FOR HAWKE'S BAY CONTRACTORS

Work done. Was it all billed?

The Missed Money Check: we take one month of your finished jobs and check every one against what was invoiced. In a week you get a list of what was missed, in dollars.

Sound familiar?

- A rate changed, the job system didn't, and every load since has gone out light.
- A finished job that never reached the invoice pile at month end.
- A docket typed in short, and nobody compares it with the load sheet.
- The same work billed twice, found by the customer before you.

What you get

1. **Every job checked**
   One month of finished jobs, each compared with what was invoiced for it. Not a sample.
2. **The list, in dollars**
   Every job not billed, billed short, billed at the wrong rate or billed twice.
3. **Why it happened**
   The two or three reasons the money slipped, in plain words.
4. **A fixed price to fix the worst one**
   Only if you want it. There's no obligation.

Our promise: find less than the fee and you pay nothing.

$1,500 fixed, no GST to add. If the check doesn't find at least $1,500 of missed or wrongly billed work, there is no charge, and you'll know your billing is sound.

2
checks a month

What a check finds

$4,803.58
not billed in one month. One haul was going out at 50 cents a tonne under the agreed rate.

132 tonnes
not billed on one docket. The load sheet said 327 tonnes; it was keyed and invoiced as 195.

Two recent finds at a Hawke's Bay cartage business, where we run this same check. Real figures, before GST. The business isn't named. The check isn't an audit or accounting advice: you and your accountant confirm each item before anything is re-billed.

WHAT WE NEED

The month's invoices (read-only Xero access or an export) and the job records: an export, the spreadsheet or docket photos.

YOUR TIME

About 30 minutes with whoever does the invoicing, by video or in person in Napier or Hastings.

ONE WEEK LATER

You get the list. Your numbers stay yours: we sign a confidentiality agreement first.

Know what last month really earned.
